

# **Sarat Centenary College**

## **Course & Program Outcome under NEP, 2020 (for B.Com. Students)**

### **Course Outcome**

- To give students a solid foundation in the various facets of commerce
- To cultivate the abilities needed to use the theories and methods in the commerce industry.
- To inspire students to have a strong work ethic so they can perform well and efficiently.
- To help B. Com. students make their economics abilities.
- To encourage the development of economics skills among B. Com. students.
- To teach students how to operate effectively in a variety of business settings.

### **Program Outcome**

- Students will gain the necessary knowledge and skills in a variety of areas, including accounting, finance, banking, management, marketing, economics, taxation, statistics, research projects, information technology, business environment, and business communication. They will also learn the fundamental concepts in all subjects within the faculty of commerce.
- Be self-sufficient and make use of the information, ideas, and abilities you have acquired from studying the abovementioned disciplines.
- Assist students in developing the skills they need to become successful businesspeople, managers, corporate executives, entrepreneurs, academicians, teachers, and others who can serve society in those roles.
- Assist students in developing the skills they need to pursue further education and get ready to do research in the future.
